

URGENT WARNING: ACTIVE IDENTITY FRAUD AND MURDER COVER-UP ALERT

***Conrad Rockenhaus, a 100% disabled U.S. Navy combat veteran and
whistleblower, is dead.***

In September 2025, Conrad was severely beaten in an illegal, warrantless raid by federal agents, which inflicted a severe new traumatic brain injury (TBI). He was left to seize in a courtroom, received 0 medical treatment, and was chemically and physically tortured while suffering severe medical neglect in federal prison for six months. He was then dumped on his wife's driveway by Redford Police on March 2, 2026, who demanded he be taken straight to the VA for life-saving care.

Redford, Michigan PD **refused** to transport him to the VA hospital. Instead, they handed him directly over to local drug addicts who drove him to his death.

Conrad Rockenhaus was caught in a massive house fire on April 2, 2026 in Ypsilanti, Michigan, at 4288 Cloverlane Drive. Covert photos from April 3 prove he survived the initial blast but was catastrophically burned. He was stashed in an Ann Arbor apartment and died days later of severe burns and infection (sepsis). His body was then put through a wood-chipper on May 4, 2026.

Now, federal agencies, local courts, police, corrupt lawyers, and criminal proxies are covering up his murder, stealing his veterans' benefits, and lying to the public about his death to hide this massive scheme of murder and fraud.

If any bank, lawyer, officer, judge, or court claims Conrad Rockenhaus is still alive, they are participating in a massive federal crime.

This is exactly how they are faking Conrad's life:

- **The Zoom Court Fraud:** On April 29, 2026, a Michigan family court let an unverified imposter log onto a Zoom webcam pretending to be Conrad Rockenhaus. Corrupt lawyers eagerly accepted this fraud to cancel his wife's protective order while she was actively running for her life. They continue to steal his benefits and lie to the public that he is alive. He is **NOT** alive.
- **The American Airlines Flight Fraud:** On June 11, 2026, the criminals booked a fake plane ticket under Conrad's name with American Airlines (AAAdvantage frequent flyer number **1N97H38**, Confirmation Code: **UUIZKM**). Travel times were booked for Thursday, June 11, 2026: Flight AA 1241 departing Las Vegas (LAS) at 8:00 AM and arriving in Dallas/Fort Worth (DFW) at 12:54 PM, connecting to Flight AA 3382 departing DFW at 4:45 PM and arriving in Waco, Texas (ACT) at 5:34 PM. They did not do this for public show. The criminals have made no public claim that Conrad is in either Las Vegas or Waco. Instead, this was a quiet database maneuver designed solely to generate fake "proof of life" data for automated bank and government systems to keep benefits active and cover up fraudulent court dockets.
- **The Virginia Setup:** We do not know who physically boarded the flight, but we have clear evidence the digital fraud was configured from Virginia.
- **Bypassing Airport Security:** The criminals set up a digital **Virginia Mobile ID** (on a smartphone) to scan at the TSA gate and completely bypass visual, human biometric checks. But they left a permanent digital trail of automated database alerts.

To stop this massive murder cover-up and fraud, we do **NOT** accept "face-to-face" biometric or webcam checks, which will only result in more fraud.

To prove any claim of life, there must be a **DNA test** as well as visual verification by **several** independent witnesses who are completely outside of the compromised parties and who can physically identify him.

Do **NOT** accept any ID, documents, paper trail, signature, or digital appearance in his name.
