URGENT: ACTION DEMANDED ON MURDER, FRAUD, AND COVER-UP.

**Conrad Rockenhaus, a 100% disabled U.S. Navy combat veteran and
whistleblower, is dead.**

FORENSIC REPORT: conradrockenhausisdead.cc

In September 2025, Conrad Rockenhaus was severely beaten in an illegal, warrantless raid by federal agents, which inflicted a severe new traumatic brain injury (TBI). He was left to seize in a courtroom, received 0 medical treatment, and was chemically and physically tortured while suffering severe medical neglect in federal prison for six months. He was then illegally dumped on his wife's driveway by BOP on March 2, 2026, who demanded he be taken straight to the VA for life-saving care.

Redford, Michigan PD refused to transport him to the VA hospital. Instead, they handed him directly over to local drug addicts (Ann Helgren) who drove him to his death.

Conrad Rockenhaus was caught in a massive house fire on April 2, 2026 in Ypsilanti, Michigan, at 4288 Cloverlane Drive. Covert photos from April 3 prove he survived the

initial blast but was catastrophically burned. He was stashed in an Ann Arbor apartment and died days later of severe burns and infection (sepsis). His body was then put through a wood-chipper on May 4, 2026.

Now, federal agencies, local courts, police, corrupt lawyers, and criminal proxies are covering up his murder, stealing his veterans' benefits, and lying to the public about his death to hide this massive scheme of murder and fraud.

If any bank, lawyer, officer, judge, or court claims Conrad Rockenhaus is still alive, they are participating in a massive federal crime.

MURDER, FRAUD, AND COVER-UP. MURDER TROPHY PUBLICLY DISPLAYED WITH IMPUNITY

On May 19, 2026, the X account @SkyPhusion, actively impersonating deceased U.S. Navy veteran Conrad Rockenhaus, posted a close-up photograph of his titanium wallet.

This is the exact same titanium wallet that contained Conrad Rockenhaus's Dead Man's Switch tracking device. It was returned to him in perfect, shiny silver condition on March 2, 2026. The May 19 photograph shows the wallet is now severely yellowed, scorched, and warped, forensic characteristics that only occur when titanium is exposed to 300–400°C heat, consistent with the April 2, 2026 lithium-ion battery fire at 4288 Cloverlane Drive that killed him.

The people who murdered Conrad Rockenhaus are publicly displaying one of his burned personal items, a literal murder trophy recovered from the fire that killed him, while continuing to claim he is alive and running a business in Texas.

This photograph is direct, timestamped physical evidence of his death. No agency has taken action.

Responsible for Conrad's Death (State-Created Danger / Murder)

Federal Level (Primary Architects):

- Bureau of Prisons (BOP) at FCI Milan: Chemical torture with Zyprexa (contraindicated antipsychotic that triggered weekly grand mal seizures), forced

3 OF 4

Suboxone addiction, and pushing him into the illicit fentanyl trade inside prison. Guards Officers Crenshaw and Zielinski (previously reported for KKK/Neo-Nazi tattoos) systematically beat him.

- U.S. Marshals Service (USMS): Violent illegal raid on September 4, 2025 on his wife's home. A marshal admitted on camera they had "no hard warrant." They beat Conrad unconscious in the driveway, inflicting a new severe TBI.
- U.S. Attorneys Benjamin Anchill and Jennifer Newby: Physically handed Conrad's confiscated cannabis back to his wife in the Detroit courthouse lobby on January 8, 2026, destroying their own justification for keeping him locked up.
- Federal prosecutors and the judge in the original CFAA case: Used perjured testimony from Texas Pre-Trial Officer Tiffany Routh and ignored FBI Agent Brett Leatherman's admission that there was zero evidence of dark web use.

Local / Proxy Level (The Killers Who Executed the Final Act):

- Redford Police Department: On March 2, 2026, they refused a mandated medical transfer to the VA hospital and dumped a hallucinating, chemically destabilized Conrad (with \$0) directly to Annie Helgren and Pam Jordan.
- Annie Helgren and Pam Jordan: Received the dying veteran. They (along with the broader proxy network) dragged his dying body to the stash house at 1996 Pauline Blvd instead of calling 911 so they could steal his VA checks.
- The Proxy Cartel Network (including William Keene, Jason Zielinski, Michael Kamke): Part of the group that hid his body and facilitated the cover-up.

On April 2, 2026, after his wife's forensic data dump shattered the gaslighting, Conrad intentionally triggered the lithium-ion thermal runaway using his SERE training. The report explicitly states this was **not suicide**, it was the predictable, warned-about outcome of the state-created danger they put him in.

Responsible for the Postmortem Fraud

- **@SkyPhusion**: Actively impersonating Conrad on X.com and Facebook, posting the burned titanium wallet photo on May 19 while claiming he's alive and running a business in Waco/Texas.
- **Allen Integrated Solutions (Scott Wilson & Emma Parsons)**: The contractor layer running the ghost flight (UUIZKM), Virginia Mobile ID TSA bypass, courtroom surveillance/intimidation, and coordinating the digital puppeting.
- **Aldrich Legal Services (Lisa Baker and Brad Aldrich)**: Took a \$6,000 retainer, ignored clear forensic photos of Conrad's burned body, and helped facilitate the Zoom imposter on the April 29 and May 20 Wayne County hearings.

4 OF 4

- **Judge Helal Farhat (Wayne County Third Judicial Circuit):** Allowed the obvious Zoom imposter to appear, terminated his wife's PPO on their wedding anniversary, and enabled the fraud on the court.
- **Lenita Rockenhaus:** Posted the public "he's alive and well / account hacked" message on May 6, friended the fake Conrad profile, and has continued running cover for the killers.
- **Rafa Guzman:** Likely Zoom impersonator and physical mule for identity use / ghost flight activity.

Responsible for the Cover-Up / Inaction

Virtually every agency that should have acted has refused to do so despite overwhelming evidence (USMS fleet video, burned wallet photo, Dead Man's Switch GPS telemetry, forensic photos).

- **United States Marshals Service (USMS):** Ran weeks of surveillance on his wife's house after they already pulled Conrad's DNA from the April 2 fire. They knew he was likely dead but continued the "living fugitive" operation before flipping to full fraud.
- **Department of Justice / FBI:** Have taken no meaningful action on the clear evidence of postmortem identity fraud.
- **VA Office of Inspector General:** Ignored multiple warnings about the medical neglect and state-created danger.
- **Wayne County Courts / Clerk's Office:** Enabled the Zoom imposter fraud and issued zero-byte documents.
- **Redford Police Department:** Part of the March 2 dump and ongoing inaction.
- **Aldrich Legal Services:** Actively participated in the fraud rather than exposing it.

This is not incompetence. This is deliberate protection of a network that murdered a disabled veteran and is now profiting from his identity while publicly displaying a murder trophy from the fire that killed him.

**They are allowing his killers to wave around a trophy from
Conrad Rockenhaus's murder.**

STOP THIS NOW.
